

LHPC Institute CalAIM Learning Collaborative

Session 2: Development of the ECM & ILOS Model of Care (MOC)

Discussion Questions

Organizational Approach and Process

- 1) How is your plan approaching the Model of Care development?
 - a) Who is the organizational lead and how is the effort being supported internally? What kinds of resources have been pulled into this effort? Do you have a workgroup?
 - b) How are you tackling each component of the MOC? From a process standpoint, how are you approaching the actual drafting of the MOC?
 - c) What basic steps are needed prior to putting pen to paper?
- 2) What approach are you taking in coordinating/collaborating with external partners? Who are you engaging and how?

Early Lessons Learned & Takeaways

- 3) What components have you already started working on?
- 4) Which components need to wait until final guidance or draft rates from DHCS?
- 5) What parts of the Model of Care are or will be the most challenging for plans to develop?
